Rotary Disaster Response Grant

PP. Apisak Jompong
Rotary Club of Maechan

Rotary Disaster Response Grant

Rotary Disaster Response Grant is a fast and effective way to respond to disasters in various places. The Rotary Foundation has added a project to respond to the COVID-19 virus in the list of eligible activities. Each district can apply for a grant which has a goal to respond to the epidemic of COVID-19 virus (up to 25,000 USD) depending on the available in this fund. Rotary Disaster Response Grant is supported by the Rotary Disaster Response Fund in order to help various parts of the world to handle the disaster. This fund is also accepting online donations and DDF donations. Districts may donate district DDF to Rotary Disaster Relief Funds and state that they are specifically used for COVID-19 projects and activities while the donations in cash will be used for general disaster response, including COVID-19.

Recently, all 4 Rotary districts in Thailand had applied for the grant in response to the COVID-19 virus outbreak by requesting maximum funding (\$ 25,000). There were 3 districts' grants including D3330, D3350, D3340 already been approved while D3360's grant is still pending consideration. The projects that each district used the money from this fund were similar, it is to produce cloth masks and distribute to the community.

ROTARIAN CODE OF CONDUCT

As a Rotarian, I will :

- 1) Act with integrity and high ethical standards in my personal and professional life
- 2) Deal fairly with others and treat them and their occupations with respect
- 3) Use my professional skills through Rotary to mentor young people, help those with special needs, and improve people's quality of life in my community and in the world
- 4) Avoid behavior that reflects adversely on Rotary or other Rotarians
- 5) Help maintain a harassment-free environment in Rotary meetings, events, and activities, report any suspected harassment, and help ensure non-retaliation to those individuals that report harassment

President's message

Mark Daniel Maloney, May 2020

*The world needs our leadership
today more than ever. Truly,
Rotary Connects the World.*

Dear Rotarians, Rotaractors, and friends,

Increasing our ability to adapt: That is one goal of our new Rotary Action Plan. And wow, have we seen that ability put to the test this year.

In March, Gay and I were to visit Zimbabwe, Turkey, and eight other countries over the course of 30 days. After participating in a medical mission in Zimbabwe and Commonwealth Week activities in London, on the 11th day, we were packing our suitcases for Switzerland and Liechtenstein.

While attending a dinner at the High Commission for Pakistan in London, we received word that it would be impossible to travel everywhere on our itinerary. So, instead of flying to Zurich, we returned to Evanston and One Rotary Center.

Throughout early March, the news about COVID-19 became increasingly serious throughout the world. Following the advice of local officials, we canceled UN presidential conferences in Paris and Rome. Soon, the World Health Organization declared the virus a global pandemic, and we consulted with authorities on more critical decisions. We asked all Rotary districts and clubs to curb face-to-face meetings until further notice and to hold virtual meetings instead. To the districts and clubs that have adapted so quickly, thank you.

The Rotary Board of Directors held its first-ever virtual meeting to make the most difficult decision of all, to cancel the 2020 Rotary International Convention. Like the more than 20,000 registrants who planned to attend, I am disappointed. We acted to protect the health and

safety of convention attendees and their families, friends, and colleagues, as well as those who call Honolulu home, and I am confident we made the right decision.

I want to thank the 2020 Honolulu Convention Committee, the Host Organization Committee, the 2020 Honolulu Convention Promotion Committee, and Rotary staff for planning what would have been one of the best Rotary conventions yet. I appreciate their hard work.

This issue of The Rotarian was going to press as the decision about canceling the convention was made, and many other decisions across the Rotary world were still up in the air. Future issues of The Rotarian and of Rotary's regional magazines, along with Rotary's social media channels, will keep you informed.

We began this Rotary year promoting the importance of the new Action Plan for all Rotarians and Rotaractors. Today, we are putting that plan into action out of necessity. That includes the possibility of a convention-like experience with you through a virtual event. We will have more to say about this in the near future.

The world is changing rapidly, and so must Rotary. Our adaptability and strength will help us navigate this experience. The world needs our leadership today more than ever. Truly, Rotary Connects the World.

Kindest regards,

MARK DANIEL MALONEY
President, Rotary International

President's message

Mark Daniel Maloney, June 2020

As COVID-19 reached around the globe, we found ourselves in a world transformed. We have been forced to connect in ways we could never have imagined, testing our ability to adapt.

Visit riconvention.org for information about virtual 2020 Rotary Convention events to be held in June.

My Rotary journey began 40 years ago when I joined the Rotary Club of Decatur, Alabama, at the age of 25, and it has brought my family and me many unforgettable moments. But nothing could have prepared me for connecting with the world as president of Rotary International. My individual Rotary journey has become a shared Rotary journey with each of you.

All of the incredible people Gay and I met this year — Rotarians, Rotaractors, and the extended family of Rotary — will be an inspiration for the rest of our lives. We visited clubs and projects from Uruguay to Ukraine, from Nigeria to New Zealand, and beyond. We were privileged to crisscross the globe, circumnavigating it twice and moving back and forth between the Northern and Southern hemispheres. Each country and each stop held its own Rotary magic. While in Zimbabwe in March, we participated in a medical vocational training team mission with Rotarians from India, providing health, hope, and life itself to the thousands who came for treatment. We also felt the energy of more than 300 young people at a Rotary Youth Symposium in Harare. What a thrill it was to be with these young people!

This year Rotary launched our new Action Plan, and I trust each club is putting that plan to use. And I have been energized by the efforts to embrace the priorities I set for this Rotary year: engaging families, providing leadership opportunities for all ages, celebrating our history with the United Nations in its 75th year, and, most significantly, growing Rotary.

As COVID-19 reached around the globe, we found ourselves in a world transformed. We have been forced to connect in ways we could never have imagined, testing our ability to adapt. We have made tough decisions, including canceling club meetings, district conferences, presidential conferences, and, much to our regret, the 2020 Rotary International Convention in Honolulu. Together everyone is

placing the public good and welfare first, despite the loss of meetings, events, and experiences that had been planned for years.

As we looked forward to the Rotary Convention in Honolulu, we learned about the aloha spirit. Our Rotary friends in Hawaii showed us that “aloha” means mutual regard and affection. It extends warmth and caring with no expectation of anything in return. The spirit of aloha applies wherever in the world we may live. As Rotarians, Rotaractors, and members of the family of Rotary, we are connected, and as aloha has been defined to me: Our connection to one another is based upon mutual respect for our differences as well as our appreciation for what we have in common. Community is the sum of individuals — individuals who have concern for one another, who care, share, and take responsibility.

As I have witnessed the members of the Rotary community act to care for humanity amid the coronavirus pandemic, I have seen the aloha of Rotary. We are indeed people of action. Every day, but particularly during this pandemic, the Rotary community has demonstrated its aloha spirit. It is a gift to be shared, and we are each a steward of this gift of Rotary. Gay and I have been amazed, inspired, and humbled by all of you within the family of Rotary.

Indeed, I would say that the last part of our shared Rotary year was transformational. We found new ways to make the lives of others better, new ways to move forward together. And, together, we will continue to grow Rotary so that we may increase our gift of Rotary to our local and global communities.

Gay and I will always remember and treasure our year with you, our shared journey, as Rotary Connects the World.

MARK DANIEL MALONEY

President, Rotary International

Gary C.K. Huang, May 2020

Ni hao, Rotarians!

Every year, as we near the end of the Rotary year, we look back on the path we've walked. Of course, this year has presented special challenges as we face a global coronavirus pandemic that has changed our lives and the way we do service.

The great philosopher Zhuangzi once said, "A path is made by walking on it." Only by forging ahead into the unknown do we actually make progress, and only by looking back can we see how far we've come. The coronavirus crisis is an unprecedented event, and I want us to look back years from now, knowing that we played a decisive role in helping the world overcome this devastating threat.

I am proud of the work that Rotary members and The Rotary Foundation are carrying out to stop the spread of COVID-19 and to help people affected. Taiwanese clubs have donated 200,000 face masks. In England, the Rotary Club of Maidenhead Bridge launched a COVID-19 Volunteer Community Response Team to help those in self-isolation by shopping, dropping off prescriptions, and supporting those in need.

The Foundation Trustees have added COVID-19 projects to their list of eligible activities for disaster response grants and are waiving the 30 percent foreign financing requirement for any new global grant that addresses COVID-19.

Of course, we must also apply the knowledge and resources we have built over many years in fighting another infectious disease: polio. The polio eradication program is already using the advanced disease eradication infrastructure to protect the vulnerable from COVID-19, especially in polio-endemic countries.

Please give what you can to help our Foundation, and our members will transform your gift into humanitarian efforts that are saving lives.

We will overcome this virus together, and when we do, we will be able to look back and know that we did not stand by and do nothing when a global public health emergency paralyzed the world. Instead, we took action and gave all that we could to stop this virus and make lasting change in our communities to help people survive and recover.

GARY C.K. HUANG
Foundation Trustee Chair

Gary C.K. Huang, June 2020

As the Rotary year ends, our fight for the cause of public health is at a critical point. We must overcome COVID-19 and build on the progress we've made over many decades.

For more on Rotary's response to the pandemic, go to on.rotary.org/covid-19. To make a donation, go to rotary.org/donate.

As I write this message, the world is in the grip of the COVID-19 pandemic. I want to dedicate this column to the ways that Rotary members, as people of action, have helped and can help, and share what we are doing at the Foundation to support you.

Rotary has long been a leader in fighting disease and advancing health. The polio infrastructure that Rotarians have helped build is being used to counter the new coronavirus, in addition to serving countless other health needs. In many countries, polio volunteers have been deployed to address COVID-19.

Rotary clubs and districts have mobilized quickly to curb the spread of the virus. In Italy, clubs in District 2080 are raising funds to purchase ventilators and protective gear for overcrowded hospitals. In Hong Kong, Rotary clubs have packed medical supplies, raised funds, and visited public housing buildings to distribute masks and hand sanitizer. Rotary clubs in Akwa Ibom state, Nigeria, conducted a COVID-19 awareness campaign.

At the Foundation, the Trustees took swift action to support your work. You can use district grant funds to support local activities, such as purchasing protective medical gear for health workers. You can repurpose previously planned activities as a COVID-19 response, or reimburse COVID-19 activities dating back to 15 March in your district's 2020-21 district grant.

Due to your generosity to our Foundation, the Trustees were able to quickly approve millions of dollars for the Disaster Response Fund to make a multitude of disaster relief grants immediately available for club and district projects related to COVID-19 relief efforts.

As this Rotary year ends, our fight for the cause of public health is at a critical point. We must overcome COVID-19 and continue to build on the many decades of programs and projects of our Foundation.

If you have not already done so, please do whatever you can to help by making a year-end contribution to our Foundation. Your gift has never been so important.

When I think of Rotary members truly making a difference in their communities, I remember what the great Laozi once taught us about leadership: "A leader is best when people barely know he exists. ... When the work is done ... they will say: We did it ourselves." The world depends on us to lead, and for your leadership, I will be forever grateful. Thank you for your past, present, and future leadership and support of our Foundation.

GARY C.K. HUANG
Foundation Trustee Chair

Editorial

PP. Vanit Yotharvit, D. 3360

Dear Rotarians,

Changing is eternal
365 days of global connections, already completed.
Along with important events, there are many things that
have to be inscribed.

115 years of Rotary organizations. From the first day until
today, There have been many changes.
Both we want and don't want it to be happened.

Changes occur all the time.
Many times it gives us time to adjust.
But sometimes it just happened without knowing.

Our world after the pandemic
Would never be the same anymore.
There are many things that we have to adapt to new
normal way of life.

Including our Rotary organization as well,
New normal way of new practices will be occur.
This new normal way of practices will be excited for our
adaptation.

However, all Rotarians heart will always fulfil with mercy
and kindness.
Ready to share to all in the society as always.

Yours in Rotary
PP.Vanit Yotharvit

Winter: Godly beams of morning light penetrating this foggy forest scene make this photo come to life. The beautifully stacked and layered vertical composition, in which the main subjects are perfectly silhouetted against a layer of lush groundcover, is a thoughtful way to utilize all the elements and bind them together. This is a tricky exposure that could have benefited from just a little more fine-tuning to retain more detail in the highlights.

FIRST PLACE (Content Page)

PHOTOGRAPHER:

Tono Valdés

Rotary Club of Guatemala Sur, Guatemala

LOCATION: Fuego Volcano, near Escuintla, Guatemala

Winter: With every color in the spectrum represented, this night time volcano scene is like a deconstructed rainbow stretched by time and punctuated by the raw power of nature. It is the rare photo that you would be happy to have on your wall, to stop and stare at every time you pass by. I love the collision of the blue-hued star trails, all traveling through the composition in tidy, concentric circles, with the chaos and violence of the exploding volcano. The green hue of the fluorescent-lit cityscape below helps balance the frame.

“Even though we are not front line warriors, we volunteer to provide full support.”

Amidst the virus crisis we are facing now, we see different kinds of people, both good and bad. However, very often in the various media we see people with good faith and generosity wishing to help others in our society as much as they can.

Covid-19 is a global phenomenon starting from China and quickly spreading around the world. This makes us realize the fact that our world is borderless, and the virus can spread easily without having to use any border pass. No matter what social level or status people hold, they can equally be infected by this virus if they don't protect themselves.

This crisis worried me a great deal, but we all have strictly followed our government's policy to stop the spread. Finally, we realized that instead of worrying about the infection, we should get up to help prevent the spread and help support the front line team (doctors and nurses) who work very hard and risk being infected by the virus.

I began using my architectural knowledge and my personal fund to design cases to cover infected patients [during transfer] and partitions for patients at risk at Somdej Phra Payuparaj Ban Dung and Huay Kerng Hospitals. The request came from those who had to deal with patients at risk at Somdej Phra Payuparaj Ban Dung Hospital. At that time, the first Covid-19 case of Udon Thani had already been identified. Once I started building the cases and partitions, the words spread around and more than 10 small hospitals in various districts sent the same requests for donation.

Although the design was not difficult, the production had to be exact and meet the needs of each hospital depending on the sizes of their beds, moving methods and physical conditions of the routes. In designing the partitions, I had to measure the distance from an investigation table to the patients and different protection requirements. Thus, each request required new measurement and planning; any miscalculation could put the medical staff at risk.

While working, I got the help from many engineer friends who sacrificed their time after work. I also received financial supports from many other friends and Rotarians in my own club to build the cases and partitions. It took us about 3 weeks to produce the items for more than 10 hospitals. What made our team and me proud and happy was the fact that we helped those hospitals reduce risks. The partitions allow doctors and nurses to work confidently and, fortunately, only one case was used by Somdej Phra Payuparaj Ban Dung Hospital. (During production, we hoped that no case would be used at all.)

During this pandemic, doctors and nurses are brave front line warriors. We, therefore, volunteer to provide as much support as we can so that we will finally overcome this crisis together.

Article

PP. Dr. Busabong Jamroendararasame,
Rotary Club of Phayao

When speaking together, a favorite thing to say is that Thais have a “new normal” life, but how do we understand it, and is it in the same way? This is an issue that we will understand gradually, and it will take time. Rotarians, too, are adjusting.

When organizing the Multi-District PETS in Chiang Mai, the preparations took many months. It is regarded as work that is not easy. Since the governors-elect of the four districts are the chairs of managing each district’s tasks, each organizing team becomes a cheering squad. Every person has different topics to prepare, to think about, to change every day. It is quite common that the all of the work will be completed or just about completed on the day of the meeting.

This year was considered special for the reason that COVID-19 came to visit. There were many new questions in the organizing group, and the number of questions increased and became more urgent due to the worry about how to prevent the spread of the outbreak. Finally they reached the point of, Have the meeting or not? Postpone it or not? Cancel it or not? This meant that the principal host side had to be especially firm because inevitably, there were people who concurred on and opposed every question and answer.

From the various reports about arranging meetings that were organized for the beginning of the year, we found reports of postponement, changed format, or cancellation. We had to educate ourselves in depth to learn what procedures the confirmed conferences followed. We found that there were many basic principles to grasp. The first principle was that the persons who come to a meeting must not have a fever. Thus, we had to prepare a procedure to take temperatures, beginning with finding the equipment and the people who could help take care of this. The location has to be clean, and therefore, we had to have intensive meetings and request the hotel to guarantee that it would be especially clean, whether it was guestrooms, meeting rooms, restrooms, doors, windows, knobs, stairs, tables, chairs, etc. In addition, food has to be hot and everyone has to have their own cutlery. Other rules are that we must provide information about COVID-19. We had to prepare a clip with both the story and teaching about washing hands and wearing hygienic masks in every way and on every screen of the hotel. We had to arrange for sufficient hand sanitizer. We hurried to buy hygienic face masks in order to have enough to use. The price had begun to rise, but we also considered it reasonable that we would still be able to find them. And, we had to answer questions from worried people and Rotarians as much as possible in order to allay their concerns.

At a time when physical stringency increased, rigor fell in regard to other issues. People who were concerned and worried

The New Normal

would not attend regardless, which meant that not 100 percent of the presidents-elect attended. We quietly suggested to people who had just come back from trips to risky countries that they not come. We also informed people who were coming to wear face masks and prepared to distribute them. The day of the meeting, we saw that everyone had a face mask but not everyone was wearing one, perhaps because they were uncomfortable or shy, too, about this new way.

Rotary International gradually cancelled meetings at every level. The tasks that followed the above request involved the registration fees, the room deposits, the airplane tickets, and various other costs. The next question was how to organize meetings of Rotary clubs. When hotels closed and most people needed to “stay at home, stop the germ, and help the nation,” that was the reason Rotarians then had to step towards The New Normal. Many clubs cancelled meetings and changed to chatting on Line or on the telephone. Some clubs met through Zoom. The organization of seminars was changed to online. We still do not know whether to head out or wait. We consider that COVID-19 had created many real changes.

New activities are that many people are seated in front of screens working from home. If there is still free time, they sew cloth face masks, make face shields, organize the house, cook for themselves or order from the screen, or take things to put in the cabinets for sharing happiness. To leave the house, one must think first, should one go out or not? Then, one must prepare the new kind of personal equipment, put on a mask and carry some in case one needs to give them away, carry hand sanitizer, plan one’s travel well and then hurry home. When one reaches home, either wash one’s hands or take a shower. Before noon comes, it is mother who waits to listen to the report from the Center for COVID-19 Administration. Some days, it is worrisome, other days, it is delightful. Now, the key numbers are decreasing, which creates the hope that we will be able to go out again. But, we must think about the second wave overseas. It gets sadder when you think about the serious situation of Europe, America, India and the whole world. Everyone needs to remember what to do, and we must use the new normal to contact each other and to ask the number of ways your and my new normal differ. I can summarize in addition that besides wearing a face mask, social distancing, eating hot food, using individual cutlery, and washing hands often, Rotarians will increasingly have a new normal in many more ways. We can regard it as a necessity because this new normal, whether or not it stays with Rotarians forever, will be here for years and not one or two days.

In year 2020-2021, we will probably talk and behave in the new normal of Rotarians, which should be not just a little fun and interesting, if we have the opportunity, to share together in the future.

SNAP JUDGMENTS

From Hong Kong to Hungary,
Rotarians captured perfect
moments in our annual photo
contest

This year, we received more than 600 entries to our photo contest from 56 countries and geographical areas. The photographs take us from the vast plains of Inner Mongolia to the manmade canyons of Hong Kong. They tell a story of Rotarians exploring the world with open eyes and hearts, making connections across cultures, and capturing beauty wherever they find it.

Our judge, Damon Winter, has brought to his task the discerning eye of a professional photographer. His comments on the images our readers submitted are like a master class in photography; like the best teachers, he sees what is good — and how it might be even better.

In addition to the winners and honorable mentions that appear in this issue, we'll feature more photos from the contest in The Rotarian throughout the coming year.

SECOND PLACE (Cover Page)

THIRD PLACE

PHOTOGRAPHER:

Yuan Lung Hsieh

Rotary Club of Tainan Cherng-Ta, Taiwan

LOCATION: Tainan, Taiwan

Winter: A masterful use of light, exposure, and composition allowed the photographer to render this colorful indoor-outdoor abstract scene. I wish there had been a little more care with the edges of the frame and a more clearly defined moment with the silhouette at left, but it is a valiant effort and clever use of exposure to see beyond how our eyes perceive this scene.

Honorable mention

PHOTOGRAPHER: Shravan BM

Rotary Club of Bantwal Loretto Hills, India

LOCATION: Udupi, India

Winter: Peak action in magic-hour light – what more could you want? Maybe a bit of golden backlighting under a crowd transfixed by the moment, just to top it off? This photograph has that too.

Honorable mention

PHOTOGRAPHER: M A Taher

Rotary Club of Sonargaon Dhaka, Bangladesh

LOCATION: Sylhet, Bangladesh

Winter: Lovely composition and framing, and a great job by the photographer getting close to the subjects to bring an intimate experience to the viewer. It looks like a difficult place to maneuver, so I'm sure careful planning and forethought were necessary to get this shot. By choosing the moment when the central woman's head turns up and catches the light, the photographer gives us an entry point into the photo and an anchor for the composition.

Honorable mention

PHOTOGRAPHER: Carlo Antonio Romero
Rotary Club of Cagayan de Oro, Philippines
LOCATION: Hong Kong

Winter: At first I thought these were stacks of shipping containers waiting to be lifted onto a cargo ship. Then I looked a little closer and saw that it was a different kind of storage – the human kind. This is a very interesting use of an ultra-wide-angle lens and an unexpected low-angle perspective along with mixed-source nighttime lighting and a surreal illuminated city sky to create this beautiful abstract architectural study that is also a poignant commentary on the modern human condition.

Honorable mention

PHOTOGRAPHER: Lola Reid Allin
Rotary Club of Belleville, Ontario
LOCATION: Fez, Morocco

Winter: One of the very few portraits I looked at that went beyond the feeling of an ordinary posed snapshot and showed quiet grace and a direct and intimate connection between the subject and the photographer. A beautifully detailed face is but one of the many patterns and textures that make up this photograph – from the weathered paint on the walls to the multiple decorative iron grates and stone details, to the different fabric textures and designs. Somehow his eyes still pierce right through that patchwork of textures.

Honorable mention

PHOTOGRAPHER: Philbert Williams

Rotary Club of Tobago, Trinidad and Tobago

LOCATION: Stone Haven Bay, Tobago

Winter: What an amazing scene, with the fallen tree as a backstop for the young goalie as a group of boys play soccer in the misty orange glow of the setting sun. It brings back many fond memories of the best time of day on the beach, when the tourists have gone home and just the people who live there remain. It's a small thing, but I keep wishing I could see if that ball was headed for the goal.

Honorable mention

PHOTOGRAPHER:

Yeong Hsiou Chen
(Asic)

Rotary Club of Taipei
Hwachung, Taiwan

LOCATION: Inner
Mongolia, China

Winter: This reminds me of the Marlboro Man ads from the 1970s, minus the weathered cowboy in a dusty ten-gallon hat. It is such an amazing scene, but it's missing a little something to take it to the next level.

Honorable mention

PHOTOGRAPHER:

Ken James

Rotary Club of
Kalamalka, British
Columbia

LOCATION: Elliston
Point, Newfoundland

Winter: A simple but lovely puffin portrait with a little something extra to make it unusual and wonderful. These birds are not herbivores, so was it doing a little home decorating? Those sorrowful eyes suggest something more meaningful.

Honorable mention

PHOTOGRAPHER:

Cynthia Barasz

Rotary Club of Saint

LOCATION: Walvis
Bay, Namibia

Winter: Absolutely perfect timing captures the battle between sea and air for feeding-time supremacy. The seagull's wings are in peak extension, with every single feather on display, beak open, ready to snatch that tasty morsel from what seems to be a very calm person. A very nice execution on a fun photograph.

Coronavirus

Rotary United to Fight COVID-19

D.3330

When a Coronavirus infection disease (COVID-19) has been spreading around the world, no one caught up with this particular situation. Doctors at hospitals over the world, even our home, were integrated into working so hard and so were nurses and staff at every agency.

It has caused a certain loss and resulted in specifying a contact distancing. In order to help others as a rotarian was to cooperate with the government and medical team when it proclaimed “Stop infection to save the Nation”. However, rotarians still had a spirit to help others according to the motto “Service Above Self.” District 3330 Rotary International with district leaders and former district governors discussed each other until they could bring about 3 projects due to the COVID-19 with 3 grants to help the district community with coordination of rotary clubs in the area at risk.

1. Disaster Response Grant. District 3330 requested for the Disaster Response Grant from Rotary International to purchase PPE kits for medical personnel by letting clubs in the district deliver to hospitals in the province that performed screening and curing the patients who were infected with corona virus 2019.

2. District Grant. Since The Rotary Foundation of Rotary International provided an opportunity for all districts to use the 2020-2021 District Grant in advance for doing projects related to COVID-19, District 3330 then gave clubs a chance to apply for this grant by which there were 5 clubs that applied, namely, RC.Phra Pathom Chedi, RC.Thavaravadi, RC.Nakornchaisri, RC.Phrapradaeng and RC.Puket South. Each club has purchased equipment by using District Grant funds to help agencies and communities as needed by each hospital, such as 18-inch industrial fans, manual treatment vehicles, alcohols, gels and automatic soap dispensers, PPE kits, face shields, socks, acrylic cabinets to prevent infection when examining patients, mask N95.

3. Global Grant. As The Rotary Foundation of Rotary International abolished the international sponsorship proportion of at least 30% in the Global Grant project related to COVID-19, District 3330 has purchased four ventilators and 8 infusion pumps for 4 hospitals, namely, Yala Center Hospital. Vachira Phuket Hospital, Surat Thani Hospital and Samut Prakan Hospital.

(Rotary Club of Samut Prakan)

Regional Rotary Foundation Coordinator Zone 6

- Thanks for the pictures from the Rotary clubs that performed the activities.

D.3340

Joint Projects to Overcome the Covid-19 Crisis District 3340

Due to the current Covid-19 pandemic in Thailand, it has now affected very much people in communities over the country. With profuse concern for those people and rotary clubs in the area of the ongoing viral infection, the District 3340 Disaster Relief Committee (D-Doo Committee) therefore invited all rotary clubs in the district to jointly create services, promote the public images of Rotary Organization to the communities, strengthen the clubs located in the communities and assess the community needs and then submit the information and action plan directly to the Chairman and Committee to request for funding to support medical personnel or related personnel in all sectors that were on duty to help infected people in communities as well as prevent the outbreak of COVID-19 at the moment. The Chairman and Committee (D-Doo) would provide cash in the amount of 5,000 baht to each club that requested the support. There were clubs' outstanding projects as follows:

1. Rotary Club of Trad, led by P. Linjong Wongchalermksuk and its members, delivered 950 CPE GOWN sets and 20 PPE kits to encourage medical personnel in Trad Hospital, Trad Province.

2. Rotary Club of Mitraparp-Khon Kaen and its members provided life bags and meal boxes to villagers to alleviate the suffering from the COVID-19 disease.

3. Rotary Club of Muang Loei donated 50 sets of PPE supported by District 3340 Disaster Relief Fund (D-DOO) and 1 set of Mask Sterilizer supported PP Sanchai Vudhipracharat and KKU research team to Chiang Khan Hospital, Loei Province.

4. Rotary Club of Nam Phong by the Disaster Relief Committee of District 3340 (D-DOO), provided Somdet Phra Yupharat Kranuan Hospital, Amphoe Kranuan, Khon Kaen Province, with medical personnel on 27 April 2020.

5. Mr. Viroj Pipatchaisiri, the Chair of Udonthani Rotary Family, together with Club Presidents and members of the 4 clubs in Udon Thani, consisting of Rotary Club of Udonthani, Magkang, Banchiang and Silapakhom, encouraged the medical team and medical staff of Prachaksilapakom Hospital by giving money and medical equipment.

6. Rotary Club of Mhak Khaeng delivered instant coffee, sugar, snacks, drinking water and alcohol for hand wash to the immigration screening stations, consisting of 5 checkpoints, namely Nong Khai, Non Sa-at, Phen District, Nong Wua So and Udon Rajabhat Institute. Those consumer products were received by Mr. Nattaphon Withi, Sheriff of Phen District, together with Mr. Chawit Pongkhan, Senior Deputy District Chief, Mr. Narongdet Khamphunok, Deputy District Chief of Security Department, police officers, public health officers, transport officers, Master Sergeant Thanathip Thaipakdee,

Chief of the Sub-district Administration Organization of Sum Sao, and disaster volunteers, from the Club President and Past Presidents of Mak Khaeng Rotary Club to encourage the staff who were on duty in the screening area of Ban Nikom Public Service Center, Mittraphap Road (Udon Thani-Nong Khai), Ban That Sub-district, Phen District, Udon Thani Province.

7. Rotary Club of Khunying Mo-Korat and Rotary Club of Chadol, District 6630 (Fellowship Club) jointly handed over 400 pieces of N95 face masks to Maharat Hospital and Debaratana Hospital, Nakhon Ratchasima.

8. The "Nam Jai Pun Suk" project to help the suffering belonged to Rotary Club of Nakhon Ratchasima. The club saw the suffering of the people who suffered from being shut down. Some people did not have income due to absence from work with the result of the disease COVID-19 pandemic. Therefore, the club launched the project of "Nam Jai Punsuk" by placing cabinets at Bueng Temple filled with stuffs collected from members of the club and the devout people. The monk dean, Luang Phor Phrathep Simaphorn helped take care and filled the food into the cabinets every day. Rotary Club of Nakhonratjasima also added dried food. It was considered as a helping and sharing to the community to survive the crisis.

9. Rotary Club of Chanthaburi and JP Riva Shopping Center, Muang District, Chanthaburi, have organized the "Pun Suk Cabinet" project to help people in need with the support of club members from Ichitan Group Public Company Limited, Lactasoy Company Limited and the devotees, jointly donated consumer goods, rice, sugar, chicken eggs, canned lettuce, canned fish, iced black coffee, milk, detergents, toothpaste, fruit and instant noodles which were worth over 20,000 baht. More than 200 people affected by COVID-19 lined up to receive the said items on the first day on 16 May 2020.

Rotary United to Fight COVID-19

D.3350

“Rotary Punsuk Cabinet” Project Supported by District 3350 Disaster Relief Fund

Reported by PP Niramit Pinyoboon (Rotary Club of Chareon Nakorn)

DG Thanongsak Pongsri was the first time very pleased with the idea of the project of Punsuk Cabinet, like “love at first sight”. He quickly called me and appreciated this project. He would like the clubs in District 3350 to do this project. I told him that this kind of project was good in many aspects; low investment, exposure to many witnesses in community, long time existence with activity of daily rotating the supplies in the cabinet. It would take months before the Covid pandemic ended. (low investment, high impact, long exposure)

This project encouraged the community members to practice helping each other and lessening the dependence on the government. People who have more, come and fill up, loosen their greediness whereas those who have less can pick up. It helps increase awareness.

On 18 May 2020, when our District Governor made an announcement of this project, there were many clubs showing their interest in joining immediately. All 21 cabinets were fully booked just in a few days. It was supported by District 3350 Disaster Relief Fund, organized as Rotary Punsuk Cabinet filled with dried food as a starter so that all clubs brought it to install in the communities and take care of them on their own.

In Buddhism, the alms-giving and the merit-making actually liberate the greediness from our minds and let go of all things, reduce thriftiness, and clear our minds without hope of rewards. The result is naturally caused by what we did. Although we don't expect anything, it still works in return, like we grow a mango tree, we will get mango fruit even we don't expect it. Or even if we pray for mango to be coconut, we still get mango. It is a natural law. It means that even if we make a merit wholeheartedly without expecting, we will still receive the result of that merit anyway. Hoping is therefore unnecessary and can be the cause of not letting go of lust.

Let me share you my own experience. On the first day when I thought to place a cabinet in front of Soi Charoen Nakhon 35, I tried to search for a store to allow us to set it up. Many stores were inconvenient and did not accept. Finally, I came to the last shop at the entrance of Soi Charoen Nakhon 35 that agreed to accept and take care of the cabinet. However, there're someone warning me that it would be “loss of both the stuffs and the cabinet”. He asked me to take his word for it. I replied that I believed him but

1. I wanted to try a new way of alms-giving and thought that since eating happens every day, so it should have to eat every day too, not infrequently like everyone else did.

2. I wanted to test the minds of people. If the cabinet's lost, let it be. It's not a matter. It's not expensive. The philanthropy is to give away. The cabinet belongs to a community. We will not cling to it. If we are only afraid, the good thing will not happen. We can only prevent damage.

3. I wanted to invite people broadly to help themselves and others and have a discipline in picking.

CP Sumalee (Pee Noi) from Rotary Club of Muang Phetchaboon said “Please do sharing. It's a good activity causing people to be aware of contribution and helping fellow human beings who are in trouble and facing a crisis. Giving a hand to each other little by little can help them get out of the crisis. I am flattered with this activity. It's very good.”

Wishing you all happiness and prosperity.

Thanks to the working team, DG Thanongsak Phongsri, PDG Prawit Rojkajonnalai. PP Yuphadee Keeree. PP Pongsak Canthasaksiri, PP Thanantad Ittiwattawanich.

D.3360

PP Dr. Natthanin Setthavanich
Editor

Due to the situation of a new species of corona virus or Covid-19 virus which is easily spreading, it has caused operational staff or medical personnel who had to treat those patients to be at risk of being infected at all times. Therefore, wearing a face mask alone is not enough. It also needs to have a PPE kit (Personal Protective Equipment) which is a protective device to protect personal safety in accordance with the standards of the World Health Organization. Generally, medical personnel are required to wear PPE clothing to prevent from infection of the COVID-19 virus according to WHO in order to

- Prevent from infection by skin and secretions of patients.
- Cover all parts of the body
- Prevent from water seepage
- Prevent from infection by air (in some cases only)

Since the COVID-19 virus pandemic spreads rapidly, it brings about infected patients in almost every province and also needs to do screening for high-risk patients. As a result, there is a need to use more PPE, but the shortage of PPE causes many hospitals to request donations from sponsors including stores, entrepreneurs and the public. DG Kamolsak Visitsakulchai of D. 3360 RI has seen the necessity for

this issue and consequently created a project to provide PPE clothing to hospitals located in District 3360 by purchasing 804 sets of PPE and divided them to all clubs in the district with 12 sets for each club so that the club delivered to hospitals in the service area. DG Kamolsak pointed out that those 12 sets of PPE were just a starter. Each club must then expand the result of the project by purchasing additional medical equipment, more or less, depending on the club's discretion and suitability. For the budget that was used to buy PPE 804 sets, it costed 270 baht per set, totalling 217,080 baht with detail as below;

1. District 3360 Disaster Fund	100,000 baht
2. Natural Disaster Funds	25,000 baht
3. Natural Disaster District Subsidy Budget	27,400 baht
4. DG Kamolsak- Anne Wanthanee Visitsakulchai	23,080 baht
5. PDG DG Waewdao Limlenglert	10,000 baht
6. PDG Anurak- Anne Amporn Naphawan	10,000 baht
7. PDG Surasak- Anne Watcharee Prugsiganont	3,000 baht
8. PDG Nithi-Anne Salithip Soongsawang	5,000 baht
9. PDG Rungranee – Spouse Athit Saengsiri	3,600 baht
10.DGE Somchai-Anne Chutima Kerddecho	10,000 baht
Total amount	217,080 baht.

The PPE kits were delivered to Assistant Governors who would hand to the club in charge.

Yearend Discussion of our Fabulous Editorial Team

PP. Jantanee Tienvijit, Rotary Club of Lanna

As this issue of Rotary Thailand Magazine is the last issue for 2019-2020, the Editorial Team met to discuss their feelings and experiences working together for one year. They also shared their opinions on various matters. It was the first online meeting for the editorial staff, an adjustment to the New Normal. The good thing was that every team member joined the meeting, saw one another's faces and exchanged their ideas without wasting time and money travelling.

(*Top row*) PDG Anurak Napawan, PP Jantanee Tienvijit, PP Vanit Yotharvut, Rtn Dearah Piboonwattanawong, PDG Jutathip Thamsiripong (*Bottom row*) PP Apisak Jompong, PP Dr.Natthathanin Sethwanich, AG Trong Sangsawangwattana, PP Dr.Busabong Jamroendararasame, Jittraporn Santithamcharoen

PP Vanit Yotharvut, Executive Editor, introduced Past President Apisak Jompong of the Rotary Club of Maechan, Chiang Rai Province, D. 3360, who will take on the title of Editor for Rotary Thailand Newsletter (an English online version). He is very keen on using online media and will certainly help improve the efficiency of the production of the newsletter in English. PP Apisak said that the readers of the English version are those who use English and international Rotary club members. Therefore, the contents may have to be modified to suit the target group. Regarding the publicity of the English online version, a QR Code may be publicized in the Thai version so that those interested can scan it and read the English version too. A link will also be sent via email to the members who use English, based on the information from Rotary Center in Thailand.

PDG Anurak Napawan, Public Relations Advisor, explained that Rotarians' emails can be found on My Rotary website, and governors can retrieve the names, addresses and contact details as a list or labels to stick on the envelopes and send them to Khun Jitraporn, Rotary Center Thailand's officer responsible for distributing the Rotary Thailand Newsletter. The contact detail updates will be done twice a year.

The meeting discussed at length about how to publicize Rotary Thailand Newsletter so that members will be more interested and pay more attention to it than what it is now. Since the appointment of the editor for each district, members have been interested in the stories about their own district governor and activities only. The addresses of the members in My Rotary are not up to date as some are based on their identification card, not their actual present address. This has affected the distribution of the newsletters to the members. Requests must be made to Club Presidents or Club Secretaries to send updated contact details of their members to the Rotary Center in Thailand. If Clubs do not inform the Center about the members who resign or new members, those who have already resigned will still receive the newsletter while new members will not. Clubs need to survey their members to see who does not receive the newsletter, and then immediately send their updated contact details to the Center. This will benefit their own club members. At the same time, the Rotary Center in Thailand will carry out its own survey by sending the questionnaire to each club at the beginning of the Rotary year to update its information.

In addition, PP Anurak informed the meeting about the opinion survey of Rotarians towards the Rotary Thailand Newsletter. Questionnaires were sent via the Multi-PETS held in Chiang Mai and

District 3340 and District 3360 Conferences. District 3330 and District 3350 did not hold the conference due to the COVID-19 pandemic, but the questionnaires were sent online to the Rotarians in those two districts. A total of 458 Rotarians responded to the questionnaire, and their opinions can be summarized as follows:

- Most members receive the newsletter regularly while some do not. Twenty-seven members have never received the newsletter as they are new members and their club has not updated Rotary Center in Thailand.

- When members receive the newsletter, most read all issues. A total of 151 members sometimes read it while 16 members do not read it at all.

- Most members like activity photos of each district, inspirational photos, special scoops and articles from Rotarians.

- 219 members like the newsletter in the printed format while 197 members like the online version.

Responsible officers will look into all the details and suggestions, and will use them to further improve the newsletter.

One-year experience and recommendations from the Editorial Team

PDG Jutathip Thamsiripong, Assistant to the Editor, D. 3330, said that she was pleased to work with the Editorial Team. All members were dedicated, and the Executive Editor gave them freedom to propose ideas for each issue. Rotarians in each district gave full support in publicizing their activities in the newsletter. For the publicity at the beginning of the Rotary year, she will help Rotary Center in Thailand survey which members receive or do not receive the newsletter as this information is very important.

Rtn Dearah Piboonwattanawong, Assistant to the Editor, D. 3340, explained that she worked with the Editorial Team for 2 years. She also found that the division of work was very good, and the Executive Editor helped make work easier. At the end of the year, the submission of some work might have been delayed due to her many other missions. As coordinator, she received great support from the clubs in each district.

AG Trong Sangsawangwattana, Assistant to the Editor, D. 3350, said she was very happy to join the Editorial Team. Previously, she was responsible for Club Newsletter and District Governor's Newsletter. After that, it was the Rotary Thailand Newsletter, a newsletter at a national level. It gave her the opportunity to develop herself, grow and know more people. For each issue, she followed the guidelines set by the Executive Editor. She tried to publicize

the Rotary Thailand Newsletter whenever opportunities arose at District 3350 meetings, via social media and presenting it to organizations or communities when activities were held. If she knew that someone did not receive the newsletter, she would coordinate with the Rotary Center in Thailand.

PP Dr. Natthathanin Sethwanich, Assistant to the Editor, D. 3360, has been working with the Editorial Team for 3 years. He seldom joined the meetings as he was occupied by his work at the hospital. Today was a good opportunity for him to meet everyone online. He was very pleased that Editor Vanit invited him to join the team. He thanked Khun Jittraporn, the Rotary Center in Thailand's officer, who had always been so patient with his occasional delayed work submission. He learned from the interviews with senior Rotarians. Previously, he would record them on the tape and transcribe them. Sometimes, the contents were not complete, so they had to be added later. Then, he changed from recording the interviews on the tape to sending questions to the interviewees to answer. Afterwards, he would edit the contents. He felt he got what he wanted, but the down side was the time it took to send the edited version for approval which led to some delays. As for the activity photos from each club; he would make sure that he put them in the newsletter equally. Once he received the theme for each issue from the editor, he would try to find more information and activities that matched with the theme.

PP Dr. Busabong Jamroendarasame, Columnist, Rotary Club of Payao, D. 3360, said she was a columnist; therefore, she did not have much chance to work with other Editorial Team members. Once she had the topics, she could write smoothly as she loved writing. Past President Vanit, Executive Editor, added that Dr. Busabong's articles were interesting, inspirational and consistent with Rotary's mission. Therefore, the contents flew smoothly and were very easy to read.

PP Jantanee Tienvijit, Executive Assistant to the Editor, Rotary Club of Lanna, D. 3360, a third year member of the Editorial Team, was assigned to write scoops, articles and interviews based on the theme of each issue and in line with the Rotarian and guidelines set by the Editor. Sometimes, she would consult the editor before laying the guidelines for Assistants to the Editor of each district. She has learned a lot from interviewing different Rotarians including Past RI President Bichai Rattakul and Rotary Foundation President & Past RI President C.K. Huang.

Working Guidelines for the New Rotary Year

The Editorial Team discussed about how to work during the new Rotary year. The members felt that the next issue should feature the Covid-19 pandemic which has a great impact on people's life at the moment. They felt that we would have to face this crisis for 1-2 more years until we have vaccine. In addition, the new issue should talk about the affected occupations, adjustment, new occupations including food business, Rotary's community service projects involved with COVID-19 such as the presentation of PPE sets to medical staff, face mask making, training, food distribution, as well as the New Normal practice and vocational activities from generation to generation.

Promotion of Rotary Newsletter Thailand

The Editorial Team paid a lot of attention to the publicity of this newsletter to Rotarians. Once the newsletter is published, it can be photographed and sent via Line to various Rotary groups. The Team will encourage each group to use the contents in the newsletter for its Rotary Information sessions during the clubs' weekly meetings. The Editorial Team also suggested that there be quizzes for readers to answer and win prizes, a horoscope column, a games corner and puzzles with a QR code for participants to quickly and easily send their answer via Line. Souvenirs will be prepared for those who participate in each activity. The Editor requested that the Team study all these recommendations carefully. Moreover, the Editorial Team considered printing future newsletters with a darker or clearer color for easier reading.

For the English version, Past President Apisak commented that previously we would wait for all the translations to be complete before we put them online. He felt that if the original articles are already in English, we can put them online right away as Draft 1, 2, 3 because we can add more translations any time later.

The first online meeting of Rotary Thailand Newsletter's Editorial Team which took 2 hours in the New Normal format was truly worthwhile with clear contents and better relationships among the team members from all 4 districts. All are willing to produce good work and hope that every Rotarian will read the newsletter which contains beneficial Rotary contents and Rotarians' activities, and be proud of our "Service Above Self".

D. 3330

Editorial of District 3330, RI

PDG. Juthatip Thamsiripong
Rotary Club of Pra Pathom Chedi

Have you Rotarians heard the term ‘release tiger into the wilds’? This is a Thai proverb. It reminds me of Rotarians both seniors and of working age who recently decided joined Rotary and then have to suddenly curtail fellowship for 3-4 months. For Rotarians 45-65 years old, you have the desire to meet for fellowship. For each of you doing things for the home cooking, planting trees, or other activities, it makes you show the picture in LINE or Facebook to keep up connection. Until you began to see that the club LINE has turned into food recipe arena. Those who cannot cook can enjoy the sight of interesting food dishes. Lucky we have no news of Rotarians down with the corona virus. Our good deeds are keeping us healthy. On the occasion of this May-June issue the last one for this Rotary year, please ask if anyone has not received the magazine. If there are any please inform your club or inform the Rotary Center.

May the effect of your good deeds keep you and your family members safe.

DG Sakon and Ann Sirapat Uengsroithong District Governor 3330, RI for 2019-2020

If distance indicate time, time also indicate the person travelling. It is a truth that everyone lives like this every day. But few persons can think and analyse the time in your life and make it fit the 24 hours you have. Becoming a leader, with dedication to offer service to others is deemed an honour which comes once in a lifetime. So time sets the limit. But distance is another gauge. This gentleman use time and distance with dedication for a year and more.

“The southern-most point in Siam, the handsome border town.”

I came to know Rotary in 1999. My father was a member of Rotary Club of Yala. I became a member in 2008 and became president of Rotary Club of Yala in 2011-12.

In 2019-20 I received the honour from District leaders and Rotarians to be District governor looking after 23 provinces (14 provinces in the South and 9 provinces of Central region) with 102 clubs. This duty of leading the District makes me feel both proud and anxious because Rotary is the world’s largest service organization and reached 115 years old that year. When I took up this responsibility I realized that I was not alone, I have a team who is ready to give support until I reached my target through the framework set by RI with support from the Past District Governors, and all the committee chairs, all assistant governors, and all club presidents. With such a team, the work of District Governor 3330 met all targets and made me proud.

The official club visits of District Governor visiting 102 clubs in 23 provinces really opened the eyes for me and my Ann Siripat (Koi). We participated in many interesting projects, and when people joined to become ‘People of Action’ in things that created sustainable change in ourselves, in the community and at world level.

My experience and that of my Ann in working for District 3330 is in meeting people who has kind heart, ready to offer ‘Service above Self’ as if we were one family and have grown up with each other and have miraculous consideration for one another. This is what I feel for our family of Rotary. Now with the Covid 19 pandemic affecting our lives on all sides, our family of Rotary is now in uncharted territory.

Rotary activities help to bind relationship together in deep and meaningful ways, past all differences. We build relationship within our communities we increase opportunities in vocational skills. In this world we tend to see competition. In Rotary we build connections as ‘Rotary Connects the World’.

I hope that the results of good deeds that we build together will protect us all in the Rotary family of District 3330 to be safe from this pandemic of COVID-19.

Editorial of District 3340, RI

Rtn. Deara Pibulwattanawong
Rotary Club of Magkang

Hello Fellow Rotarians.

From a time when we had to go through the tough times of the Covid-19 outbreak, not just Thailand. But it means almost every country in the world today, it seems that we are beginning to pass it fragile. But still cannot be trusted that we will get out of this crisis entirely Because we still need to continue building immunity until we are confident that we can actually control the disease.

Several clubs were involved in the crisis. By donating a surgical mask, negative pressure cabinet, a sterile cabinet for disease testing Fever and pressure detector Donating consumer goods as a living bag or a kiosk Giving food These are all things that represent our kindness, the Rotarians who always think of the less fortunate.

For the final issue of the Executive Year, Rotary Connecting the World is a year where we may see projects. Imperfect progress due to national shutdown measures and operations that had to stop for a while. But I believe that We can continue to do so in the coming management year. "Rotary Opens Opportunities"

DG Maruay Jintabandi Wong, District Governor 3340, RI for 2019-20

From the Heart of the Governor of District 3340
"Rotary Connecting the World"

DG Maruay Jintabandi Wong, Year 2019-2020

Year 2019-2020 is another dimension of life experience. Doing personal business and Rotary work for a district is completely different work. Working Rotary for that district was a huge challenge. We ourselves must be ready at all times. And ready to receive new things Come in all the time It is a 115 year old large and old organization. We must embrace everything that is changing and improving all the time.

During the working period from 1 July 2019 - 30 June 2020 for 1 year of administration in that region Must say thank you to the team, the district management team and the project president This includes the assistant district secretary and club president of all clubs, as well as the 3340 district Rotarians who are all cooperative and responsive to working together well. Even beyond expectations I learned to work experience this time. It was an uneasy experience. Individuals are given the opportunity to work with successful individuals. In the professional and private areas, almost everyone is a leader.

Finally, I must say thank you to Rotarians Part 3340 for giving me and the Jintabandi Wong family. Has come to work in the area of 3340 with great pride and honor It is a lifelong memory.

Work summary District 3340

1. Flood relief project Ubon Ratchathani Province of District 3340

It is a project of the Committee to help victims of natural disasters of Region 3340 (D-Doo), with _ As chairman of the board During the months of August - September 2019, there is continuous heavy rain and accumulated forest water. Flooded in many areas of Thailand in District 3340 has a province that has been heavily flooded. Namely Khon Kaen and Ubon Ratchathani Province, D. 3340, did not wait to receive donations from all sectors

By choosing to help Ubon Ratchathani Province Due to the impact of almost the entire province, 25 districts, 129 sub-districts, 826 villages at that time, received a donation amount with many things. And stopped receiving donations on October 2, 2019, during which the event Started to go to normal

This is the success and happiness of many donors. Since the committee has managed budget allocation as thoroughly as possible. After normal Rotary Club of Mitraparp-Khon Kaen by P. Sudapen Vongvanich leads the club team. Traveled to hand over mats and blankets to flood victims in Ban Phai District. To help the victims By gathering factors from club members and different clubs. Including the kind and compassionate charitable people in Khon Kaen Province Because even after the flood The water will dry and disappear. But the damage that happened after the flood was still beyond description.

2. Family Food Safety Project

It is a project by the Rotary Club of Sakon Nakhon Which is a project that focuses on food sustainability for villagers in the Sakon Nakhon Province area Which is a continuation of the underground water bank project Which is a remarkable project and has received the Royal Trophy at the regional and national levels.

The project of Family Food Safety will provide knowledge in various fields. About tilapia fish in a natural ecosystem Farmers who participate in the project must be interested and determined. In this project, DGND Niwat Boonyasiriwong is the representative of the Sakon Nakhon Rotary Club, donating fish with fish farming materials and equipment to farmers and interested parties who participate in the project. To start raising tilapia in the Biofloc system for many village farmers. In different districts Of Sakon Nakhon Province Interested in the Family Food Safety project of the Rotary Club of Sakon Nakhon Before receiving fish and materials - equipment Farmers are trained to understand farming methods and procedures and must review how to use the equipment. The initiation of Floc production and fish feeding during the formation of the Floc is a comprehensive review of the understanding for sustainable and sustainable results in initiating fish farming.

3. Project to promote the conservation of Thai and local music (International Service Project)

Rotary Club of Roi-Et, Rotary Club of Ubon, Rotary Club Soka City Club, Japan Donated Thai musical instruments and local instruments in the project “Project to promote the conservation of Thai and local music” International Service Project (ISP) for Ban Mu Mon School, Mu Mon Sub-district, Chiang Kwan District, Roi Et Province, worth 67,880 baht, together with a performance of Thai and local music for students. With teacher Paiboon Starat, the instructor therefore performed beautiful songs Very impressed He was informed by the school that Has a program to make breakfast for students Without using the school’s budget or the royal budget, CP. Warunee Suriyawanakul contributed 5,000 baht to support the breakfast project for students.

4. Rotary Club of Roi-Et donates electric pole to Roi Et Municipality

Mr. Wanchai Kongkasem presided over the ceremony to hand over 10 solar cell lighting poles to Roi Et Municipality. At the road around Khlong Khu Mueang, Section 2, Roi Et Municipality, Nai Mueang Subdistrict, Mueang District, Roi-Et Province with Mr. Banjong Kosit Jiranan Mayor of Roi-Et Ms. Warunee Suriyawanakul, Founder of the Roi Et Rotary Club Rotary club members And government officials attended the event

Mr. Mongkon Surasaknithikul The president of the Roi-Et Rotary Club of 2019-2020 said that the committee of the Roi-Et Rotary Club sees the use of electric energy that is environmentally friendly and beneficial to society as a whole, as a result of joint donations made by members of both 41 people of Roi-Et Rotary Club It is also one of the community management projects which is one of the 6 main activities of the year 2019-2020 as well. The Rotary Club of Roi-Et has therefore purchased electric poles with solar lighting system. Installed to the Roi Et municipality At the road around the Khu Mueang Canal, part 2 and has been donated this time for the common use Help save electricity bills Environment friendly Which will benefit humanity in the future.

D. 3350

Editorial of District 3350, RI

AG. Trong Sangswangwatana
Rotary Club of
Bangkok Suwanabhumi

Greetings on the end of Rotary Year 2019-2020 !!

Though our life has been resumed to normal situation amidst the pandemic of COVID-19, we have to adjust ourselves in accordance with the government's new normal measures for the prevention of the COVID-19. While we are waiting for the vaccine which is now under the process of research and development, our editorial board from 4 Districts had used this period as their opportunity of more frequent greetings of each other via the meeting conducted via the ZOOM application. I am pleased to inform you that this latest edition contains the interview with DG. Thanongsak Phongsri regarding the result of the annual activities as well as the 4 interesting Global Grants Projects from a number of Rotary Clubs.

In addition to a number of activities such as the donation of medical stuffs (such as surgical masks, KN 95 masks, fabric masks, and PPE gown) to the medical staffs, the training of fabric masks sewing to public, as well as the donation of food to the communities, the special feature of this edition presents the project of District 3350 for "Rotary Disaster Response Grants (COVID-19)" namely "Rotary's Cupboard of Happiness" which continually distribute the happiness of giving and sharing to communities. It is expected that the initiative will be the pilot project for another 21 Rotary Clubs in the coming future.

I wish you a strong health and safe life during this COVID-19 crisis !!

DG Thanongsak Phongsri

District Governor 3350, RI for 2019-20

2019-2020 is the year of “Rotary Connect the World” under the unusual situation which Thailand and the world had been widely affected by the pandemic of COVID-19. The last quarter of the year was considered as the difficult period of Rotary when most of our activities were obligated to be complied with the government’s measure of “Stay Home, Stop Diseases, Save the Nation”. Despite the difficulty period, Rotarians had strongly and continually maintained our sympathy to those in need in the communities.

District 3350 RI had initiated projects for assisting and helping those in need as follows :

1. District Grant : Project for the production of 21,000 facial masks and 10,000 sanitizer hand gel and delivered to the communities.

2. Global Grant : Project for the donation of the medical equipment and the Isolation Chamber-Negative Pressure to Rajvithee Hospital.

3. Disaster Responses Grant : Project for the production of 20,000 facial masks delivered to the communities.

4. D. 3350 Sai Thaarn Naam Jai Rotary (Rotary Goodwill Fund) : Project for the production of 10,000 sanitizer hand gel and 21 Cupboards of Happiness.

In addition, result of activities of the year 2019-2020 of “Rotary Connects the World” are as follows :

1. Membership development: from the total of 2,821 members of 113 clubs on July 2019, a number of has been currently increased to 3,033 members and 116 clubs. The increased 3 are :

1.1 Rotary Club of Sai Mai : established on February 12th, 2020 at Bangkok, Thailand with 25 chartered member led by President Dr. Buranasilp Toebuddhee.

1.2 Rotary Club of Mandalay : established on February 14th, 2020 at Mandalay City, Myanmar with 22 chartered member led by President Muang Tin Muang.

1.3 Phnom Penh Chak Toe Muk : established on February 23rd , 2020 at Phnom Penh City, Cambodia with 26 chartered members led by CP. Phally Leng.

2. Rotary Foundation : the amount of 909,302 USD had been donated to the Annual Fund at 682,602 USD as well as the Per Capita of 241.97 USD. Meanwhile the rest of 226,700 USD had been donated to another funds. Moreover, the social services project under the sponsorship of the Rotary Foundation were as follows :

2.1 Global Grant : 111 project with the total amount of 189,501.984 THB (6,089,907.88 USD).

2.2 District Grant : 26 projects with the total amount of 4,085,760 THB (131,308.04 USD).

2.3 Disaster Response Grant : 1 project with the total amount of 800,000 THB (25,711.35 USD).

3. Rotary Images : all Rotarians and Rotary Clubs had been advised for the promotion of the Rotary image in many aspects as follows :

3.1 Individual level : all members of District 3350 had been advised to promote the images of the Rotary as well as being the good example for the community, society, and country.

3.2 Club level : all Clubs had been advised to present their activities images under the concept of “People in Action” to the media and communities. Furthermore, all clubs had been advised to create the popular online channel like a Facebook page .

3.3 District level : created the website, Facebook page, and Youtube channel in order to present and promote the District and Clubs’ activities.

I wish to extend my sincere thanks to all Rotary Clubs and all Rotarians’ collaboration in bringing the success to all activities of the District 3350.

May all of your respect divines, deities and the merit of your goodwill bless you and your family a prosperity, strong health ,and safety during this crisis.

D. 3350

Work summary District 3350

COVID-19 Response for Medical Equipment & Supply by AG Woradetch Panjarongkha (Rotary Club of Sukhumvit)

As the pandemic of COVID -19 and the Thai Government declared the Emergency Decree, workers and students were obligated to stay and work at home amidst the nervous which spread over the nation. However, after I acknowledged the message “ We wish to help the doctor with our knowledge” dated March 19th, 2020 by Associate Professor Oudomkiat Nonthakaew,Ph.D., my nervous on business and family were relieved and then substituted by my intention to help the society with the power of Rotary . I therefore called DG Thanongsak Phongsri and discussed with him about this matter.

The Governor who is the leader with a spirit of “Service Above Self” advised me to search for the information regarding the preparation of District Project. Meanwhile, the Global Grant for the Project was sponsored by Jason Lim, Past Governor of the District 3350. The information searching began from one of physician of Rajvithee Hospital who told me the problems about the numbers of patients. In addition, my wife reminded me about the cooperation between the Rotary Club of Sukhumvit and Dr. Charoen Wiphuphinyo for the donation of the Ultrasound Doppler for the Rajvithee Hospital .She also advised me to discuss with Associate Professor Dr. Poj Intalaphaphorn, Chief of Infectious Disease Section of the Hospital about details of the required medical equipment such as the Negative Pressure Isolation Chamber/Tent used for the treatment of COVID-19, high quality air filter, surgical mask, and surgical shoes. In addition to the advice from network of engineering experts, AG Srifa Siriudomseth’s efforts in searching for the aforementioned equipment and in preparation of details of GG#2011839 was the key reason behind the success of the approval of the project within 3 days which the equipment were then delivered to the Rajvithee Hospital on May 15th, 2020.

I would like to extend my sincere gratitude to Associate Professor Oudomkaew Nonthakaew Ph.D., Associate Professor Phawanee Narattharaksa ,Ph.D., Jittakorn Kanoknaiyakarn, Ph.D. from King Mongkut’s University of Technology, North Bangkok, and PP Prasath Kiatphaiboonkit for their kind assistance and support of the engineering information which was crucial for the physicians’ need.

May the merit from this project bless the Rotarians and their family a strong health and continually the annual support for the Rotary Foundation as always.

Project for the Improvement of Medical Services for New Born Infants.

by Past District Governor Suchart Chuenchokesan , Ph, D. (Rotary Club of Bangkok Nawamin)

(BMA) Hospital located at the 3rd Buddha Monthon Road, serves 600,000 citizens of the BMA Districts of Thawee Watthana , Bangkhuae, Bangbon, Nongkham, as well as Samphran District of Nakhon Phathom Province. Daily average number of the medical service is 500 for OPD and the delivery service provided to both locals and foreign workers is 3. Unfortunately, the less awareness on the importance of Antenatal Care has caused numbers of problems to the new born infants. Moreover, the obsoleted condition and technology of the infant medical equipment with more than 15 years used at this 25 years hospital is also considered another service constraint of the hospital.

Therefore, the Rotary Club of Bangkok Nawamin had surveyed and held meetings with the physicians and nurses working on the Infant Primary Care Section regarding the requirement of the medical equipment and the improvement of the medical services

for the new born infants as follows :

1. Infant Ventilator for NICU which is currently insufficient for the hospital since the single one is malfunction.
2. Infant Neonatal Monitor which is required for both NICU or Infant and Baby Ward.
3. Latest technology Infant Patient Ward Monitor with 12" Touch Screen.
4. Portable Infant Patient Vital Signs Monitor which is required for the OPD Ward, IPD Ward ,and NICU.
5. 3 Infant Infusion and Syringe Pumps
6. Portable Infant Incubator which is required for the complication infant who need to be transferred to another hospital where Pediatricians with more medical expertise are stationed .

Despite excluding the Rotary Foundation Grants, the Rotary Club of Bangkok Nawamin donated this equipment to the hospital by the efforts of Rtn. Songsang Jooljanejai who had concerned about its importance to the new born infants. This GG#1987807 which costs 1,313,946 Thai Baht (approximately 42,340 USD) was sponsored by the District 3750 of South Korea and District 3490 of Taiwan in the total amount of 19,900 USD.

The Rotary Club of Bangkok Nawamin had handed over this project to the Rajphipath Hospital on the occasion of celebration for the Club's 5th Anniversary on December 18th , 2019.

Global Grant Project 1990362 - Training in packaging and online sale to enhance opportunity for career development and products sale under the support of Rotary International.

by AG Srifa Siriudomseth (Rotary Club of Charoen Nakorn)

The training was organized by the Rotary Club of Charoen Nakorn, the host club , RC Bangkok, D 3350 and RC Surin D 3340, the local club together with international partner RC Jeju Seobu plus RC Jeju Hondi, RC Jeju Gaon, D 3362, RC Jungdo, D 3680 and RC Busan Eulsukdo D 3661 from Korea as well as cooperating partners The Foundation for Education Along the Borders and The Secondary Educational Service Area Office 33. The training was conducted on June 23-26, 2020 to 200 students and 40 teachers from 13 schools along the border and 7 schools in Muang District of Surin Province.

For the first two days, Ajarn Naeti Thammapanont, a certified Lazada trainer together with assistant professors and teaching assistants from University of Rajbhatat Suan Dusit and Surin taught sale on line both in theory and workshops. At the end of the training 80 students have registered that they have tried to open

shops. On the last two days, three trainers with doctorate degrees and two with master degrees from Packaging Center of TISTR conducted training on how to do attractive and presentable packaging by dividing workshops into six groups of products relevant to what they intend to sell. It was really amazing to see the final results of packaging that they could do. Some of the teachers even said that they would apply the training to make their products more sellable.

At the moment, we are monitoring and evaluating what trainees are doing. If everything can be carried out as planned, on July 4 we will have an evaluating and training session for them. The Covid19 pandemic has caused a new normal in the way of lives for people to do shopping on line more. Our training focusing on community economic development is really the most up-to-date training which help teachers, students, as well as their community to improve their marketing channel and hence their economy.

Health prevention and disease prevention in patients by PE Dr.Thananut Chaengsamsri (Rotary Club of Yannawa)

Rotary Club of Yannawa's Global Grant Project year 2019-20 was occurred from the survey of the needs of communities in Angthong Province. Angthong Hospital is an organization that provides public health services both within the province and nearby

provinces which provides both proactive and passive services. Currently, there are approximately 1,200 patients per day, which does not include chronic disease patients who are bedridden patients that are still increasing in community living in rural areas. Especially the elderly patients with severe illnesses requiring immediate treatment must be sent to the hospital quickly, delayed treatment may result in death of the patient.

The committee of Rotary Club of Yannawa has agreed to donate an ambulance with medical equipment to Angthong Hospital. The project is funded by both in abroad and in Thailand

On 8 May 2020 at 10:00 am at "Rattanasiriwilai" Conference Room, Angthong Hospital, President Winai Rattanasiriwilai on behalf of Rotary Club of Yannawa has arranged a Handover Ceremony to deliver the ambulance with full standard medical equipment to Angthong Hospital. There are District Governors 3350 Thanongsak Phongsri and Mr. Phongphan Wichiansamut, Deputy Governor of Angthong Province to be co-chairman in the ceremony and Dr. Prapas Lisuthiphonchai, Director of Angthong Hospital to receive the ambulance.

D. 3360

Editorial of District 3360, RI

PP. Dr. Natthanin Sestawanich
Rotary Club of Phrae

Hello Fellow Rotarians.

This issue is considered the last issue of the management year 2019-2020. Thank you for following the news and knowledge. Along with our great articles that our magazine editors have been scrutinizing And designed for all readers to not be bored And to find more interesting things to make articles in Rotary Magazine more valuable. Hope you all will be impressed with what we have to offer in every issue.

For this edition It summarizes the work of the Governor of District 3360, RI through interviews with him in various senses throughout his administrative year. And still have outstanding projects Which you quoted some for us to learn And apply it to your own club We hope this will be a valuable interview with all of you. Finally, in the situation of the COVID-19 outbreak district 3360 has created a good project To the hospital by donating to every club in district 3360 to the hospital in their own community. And ask everyone to keep themselves safe from infection And also maintain public health measures By wearing masks, washing hands frequently, keeping a distance of 1-2 meters at all times in order to prevent further infection and outbreak of Thailand.

DG Kamolsak Visitsakulchai

District Governor 3360, RI for 2019-20

All Rotarians, Rotary Anne, All Rotary Gentlemen

I served as the Governor of District 3360 RI for almost a year now. For the past almost a year, it has been one of the most exhausting periods of my life. But at the same time Likewise, the first six months were also the happiest and most proud of the first six months visiting 67 Rotary clubs in 3360 parts of the North 14 provinces Monday - Friday. Travel everyday Get some rest during Saturday - Sunday But what if Saturday - Sunday The club invited to join the event, it will not rest. There was one time at 8:00 am. Visited at Rotary Club Kamphaeng Phet and finished visiting at 8:30 p.m. The next morning, I had to go to the Rotary Club in Chiang Rai. I have to hurry to travel from Kamphaeng Phet Province to rest halfway to Lampang Province. Arrive at Lampang at around midnight and wake up in the morning at 5:30 am and depart from Lampang Province to Chiang Rai Province just in time for the opening ceremony.

This is a very difficult and happy period of life. Club visits are a highlight of my career as governor. The club welcomes the District Governor and Rotary Anne with the highest honor. Take it to eat the most delicious food. Take a tour of the most beautiful locations available in the club's service area. I think there will never be another time in my life that has such a beautiful and proud thing. Impressions of friendship and hospitality at Rotarian, Rotary Anne, and Rotary Gentlemen Every club in District 3360 is available to me and Rotary Anne Wantanee. Will be engraved in our hearts forever

Thank you to all Rotarians in District 3360 for working together to lead Rotary organizations in Region 3360 to move forward with strength. Achieving goals that are set in almost every way Despite obstacles and problems Infinitely Benefit from the virtues that we share in this time, help inspire everyone to experience happiness and prosperity. Prosper Fulfilling wishes in all respects forever.

D. 3360

Work summary District 3360

DG Kamolsak Visitsakulchai
District Governor 3360 Year: 2019-20

PP. Dr. Natthanin Sestawanich

Interviewer and editor

For featured projects That I would like to take as an example of our region 3360, there are a total of 4 projects. In addition to these 4 projects, these projects are important and beneficial to the community. But if I were to cite every project of every club, it would be very long, so I would like to select 4 projects as an example.

Weir building project to soften the water from the Wang River

by The Rotary Club of Koh Kha, Lampang Province

This project started in 2015, starting to build 3 continuous dams to slow the water. Each dam is 100 meters long to block the water from the Wang River starting at Ban Nong Waeng and then Ban Mon Kaew. Usually during the dry season, the Wang Nam River is very dry. The village water supply normally absorbs Wang water for use, but when the dry season is unable to absorb it, the villagers are in trouble and have insufficient water. After building a dam, the water barrier can be raised up to 2 meters. As a result, the villagers received water to drain nearly 1,00 rai of rice fields, which is very useful. The value of building a dam of water softening is approximately 200,000 baht. Technique for building a weir, he uses cement and dry sand, put it in the sacks and placed in the water barrier. When exposed to water, it becomes concrete. In the year 2019, create additional work at Nang Tan's house with a budget of 1.8 hundred thousand baht, the latest construction at Mae Yuak House, Na Kaew Subdistrict, 110 meters long, with a budget of 4 hundred thousand baht.

The Club Muang Koh Kha organized a project to earn more than one hundred thousand baht and received support from the Doi Phrabat Club and the local administration organization. By the day the weir was built, there were hundreds of villagers. People are an amazing sight.

Educational tutoring project for students (Zero to Winner)

It is a good Rotary branding project. Make students learn Rotary and get to know more. The project's drivers are Assistant Director of Nithi and Rotary Anne Salathip Sungkawang, with projects in 8 provinces including Chiang Rai, Chiang Mai, Phayao, Lampang, Phrae, Nan, Sukhothai and Phitsanulok. Get feedback as well And students want to have every Years to provide juniors with this great opportunity from Rotary.

Medical device donation project by Rotary Club of Chiang Mai Thin-Thai- Ngam)

Through a Global Grant in partnership with The White Elephant Rotary Club Rotary Club of Lamphun Hariphunchai Rotary Club And Rotary Club Komaki from Region 2760 to donate to San Pa Tong Hospital, Lamphun Hospital, Doi Saket Hospital It is worth 2,263,000 baht. The advantage of this project is that it is an example of a large club that invites small clubs to work together and benefits up to 3 hospitals.

**Economic & Community Development (VTT)
Agriculture Training for Grape Growers by
Rotary Club of Wangchan Together with
Region 2760 to undertake a training project on
cultivation of exquisite seedless grapes. Which
is a successful Japanese innovation By sending
agriculture to train in Japan for about 1 month
and back to Thailand to cultivate knowledge
With speakers from Japan also visiting and
teaching in Thailand**

Nong Non Tai

Summary of income and expenses

After the project was implemented for up to 2 years. The Project Committee, has conducted an audit by a certified auditor. The documents have been sent to donors, including all Rotary clubs, and to be distributed to all Rotarians. Therefore present in Rotary Magazine Thailand as well.

As for dredging monkey cheeks in Phase 2, the Royal Irrigation Department has received a budget, which is currently being dredged. Expected to be completed in accordance with the budget received soon.

Rotary Centre in Thailand

Dear fellow Rotarians

May and June are the youth service and fellowship months. During this time, all Rotarians have been working hard on their extensive activities, despite the necessary Covid-19 safety precautions. Particularly at the end of June, every club and district plans to attend the DTA and clubs' installation ceremonies under the leadership of new club presidents and new district governors. I wish to take this opportunity to congratulate all of them on their new leadership and also congratulate the previous-year club and district governors on their impressive achievements.

The Rotary Centre's executive committee had several large- and small-group online meetings and discussions about a variety of issues regarding how to improve the Centre so that it can be the most beneficial to clubs and districts; these discussions included supporting communication and public relations as well as assisting them in promoting service activities.

The committee also attempted to appropriately decrease the district dues required for supporting the Rotary Centre and regional magazine during the year in order to assist those economically affected by the Covid-19 pandemic. The service quality was upgraded, including translation for more individual members' requirements and training programs for enhancing knowledge. The Centre's website is provided for Rotarians to search and download any document they may require.

The important issues for the Rotary Centre's improvement concerned increasing updated public relations for communication among clubs and districts to enhance collaboration, sharing, and learning information for members in the country, including promoting service activities for outsiders. Our social media should make use of the most modern applications, such as Facebook, Group line, and websites that include a magazine available in both book and e-magazine formats.

During the past 2 years, the Rotary Centre in Thailand has improved a number of its services. For example, the cooperation and support of the joint-effort projects or programs of districts and clubs (e.g., the Monkey cheek project (Big storage reservoirs), Multi-PETS, DTA and DC, training and orientation programs, and adapting website content for members' information searches). There has also been a focus on improving various important translation issues for different training topics and cooperation between the Rotary Centre and RI head office for public relations, as well as other solving-problem matters.

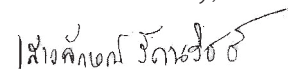

To support membership development, "Membership-Lead" in a Thai version was initiated for all Rotarians and outsiders to learn more about the organization's activities and attract them to becoming members and join the available activities. To support the public image creation in "Service Above Self", the "Sudden Aid fund for Disaster's victims" project was initiated to assist those affected by serious disasters in Thailand. We also cooperated with other organizations to join hands in improving service opportunities. "Open chat Group Line" is another successful public media program we have initiated to open opportunities for all members to share, learn, and communicate any activity, issue, or questions and answers about Rotary International.

All other routine services are provided as usual, but we have developed a more rapid service available to all. The members' cooperation has worked especially well. We have received assistance from some members, as always, for particularly urgent translations required both on website postings and Open Chat Line communications; the following members should be recognized in this regard: PP. Aphisak Chompong from the RC of Mae Chan, PP. Phanu Yosmetha from the RC of Bangkok Cyber, and PP Sukkith Thaweewisaesanon from the RC of Bangkok East.

On behalf of the Rotary Centre in Thailand, I would like to express my heartfelt appreciation to the executive committee members, advisors, and all staff members, particularly to all district governors for their constant and highly effective support, service, and cooperation throughout the past 2 years. For the next years' term of service, 2020–23, PDG Wiwat Sirichangkapattana, District 3360, will chair the office with the new executive team; please join me in welcoming and encouraging them for the success and advancement of the Rotary Centre in Thailand and the future strength of our organization.

Wishing you all the best as always.

Yours in Rotary,

PRID. Dr.Saowalak Rattanavich
Chair, The Rotary Centre in Thailand

The Rotary Club of Chiang mai Thin-Thai-Ngam

The Little Light for Life Project was occurred by the thought of President Chalida Ekachaipattanakun. After listening to a lecture from Dr. Sakduang Jongkaewwattana, President of the Research and Development Foundation for Quality of Life at the weekly meeting On 12 September 2019, there was an inspiration to organize fundraising activities to help the underprivileged around the border seams at Ban Pok Lang, Doi Tao District, Chiang Mai Province to have a better quality of life.
